Tanya,
Attached is the WLA that was used for the Adel renewal. Attached is also the requested Raccoon River TMDL. Please let me know if you have any questions or concerns.
Thanks,

Good morning Ryan, please send a copy of "Deriving effluent limitations from the Raccoon River TMDL", memo and the TKN calculations? I'm trying to understand why the TKN TMDL WLA of 133 lbs/day was changed to TKN limit of 413 lbs/day in the draft permit using the memo mentioned above (these are daily max limits). The TKN calculations were not included in the WLA part of the fact sheet. Thank you.
